ACCREDITATION / MEMBERSHIP

AAHS
American Association for Hand Surgery

Working together to advance global hand care and education, the AAHS represents a diverse but cohesive mixture of over 1,400 highly respected professionals working in all disciplines of hand surgery and hand therapy. Members include orthopedic surgeons, plastic surgeons, general surgeons, microsurgeons, hand therapists, nurses and basic scientists. AAHS is an inclusive organization that welcomes members from many disciplines who are interested in upper extremity care.

If you are interested in becoming a member of the AAHS, please contact the AAHS Office at (978) 927-8330, contact@handsurgery.org or www.handsurgery.org.

ASPN
American Society for Peripheral Nerve

The American Society for Peripheral Nerve is an organization devoted to the promotion and development of peripheral nerve surgery. With focus on stimulating the study and research in the field of neural regeneration, providing a forum for the presentation of the latest research and relevant clinical information, and serving as a unifying authority on all areas of neural regeneration and restorative neuroscience, ASPN has served as a premier organization in the field for over 25 years.

If you are interested in becoming a member of ASPN, please contact the ASPN Office at (978) 927-8330, contact@peripheralnerve.org or www.peripheralnerve.org.

ASRM
American Society for Reconstructive Microsurgery

The mission of the American Society for Reconstructive Microsurgery is to foster excellence and innovation in microsurgery and reconstructive surgery. For over 30 years the ASRM has provided a forum for teaching, research and free discussion of microsurgery and reconstructive surgery methods and principals amongst its members. Members of the ASRM, with their tireless work and innovation, have helped transform the field of microsurgery and reconstructive surgery and continue to do so as an organization of over 800 members.

If you are interested in becoming a member of the ASRM, please contact the ASRM Central Office at (312) 456-9579, contact@microsurg.org or www.microsurg.org.

EDUCATIONAL PROGRAM DETAILS

Intended Audience
This educational activity is intended for healthcare professionals and researchers working in the fields of hand surgery, peripheral nerve and/or neural regeneration, and microvascular surgery and other complex reconstructions.

Overall Learning Objectives
Please refer to the meeting websites for complete objectives and educational program details.

ABMS Core Competencies
This program will address the following ACGME/ABMS Competencies:

- Patient Care and Procedural Skills
- Medical Knowledge
- Systems-Based Practice

ACREDITATION INFORMATION

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American Society of Plastic Surgeons (ASPS), the American Association for Hand Surgery (AAHS), the American Society for Peripheral Nerve (ASPN), and the American Society for Reconstructive Microsurgery (ASRM). The ASPS is accredited by the ACCME to provide continuing medical education for physicians.

AAHS Designation Statement
The ASPS designates this live activity for a maximum of 17.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

ASPN Designation Statement
The ASPS designates this live activity for a maximum of 18.50 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

ASRM Designation Statement
The ASPS designates this live activity for a maximum of 24.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Joint Day Designation Statement
The ASPS designates this live activity for a maximum of 3.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

DISCLOSURE POLICY

The American Society of Plastic Surgeons (ASPS) requires all faculty, authors, planners, reviewers, managers, staff, and other individuals in a position to control or influence the content of an activity to disclose all relevant financial relationships or affiliations. All identified conflicts of interest must be resolved and the educational content thoroughly vetted by ASPS for fair balance, scientific objectivity, and appropriateness of patient care recommendations. The ASPS also requires faculty/authors to disclose when off-label/unapproved uses of a product are discussed in a CME activity or included in related materials. Complete disclosure information will be provided prior to the start of the activity.

AAHS Theme: Inclusion and Collaboration

AAHS Guest Society:
Italian Society for Surgery of the Hand

Absence of a thumb is not common, and as hand surgeons our natural feeling is to restore it. We have accepted the concept that microsurgery is useful in the treatment of amputated and deficient thumbs. My talk will stress that the importance of the judgement of the thinking surgeon is perhaps more important than the surgical skill in thumb restoration.

LAWRENCE J. GOTTlieB, MD, FACS
Professor of Surgery, University of Chicago
ASRM Buncke Lecture

As faculty at the University of Chicago Section of Plastic and Reconstructive Surgery over the past 33 years, and as former Chief of the section and program director of the reconstructive microsurgery fellowship and current Director of the Burn and Complex Wound Center, Dr. Gottlieb has been a pillar of resident and fellow education, motivating dozens of trainees to pursue careers in reconstructive microsurgery. Many have progressed to become regional, national, and international leaders in the field. Beyond direct care for thousands of patients, he has presented his work and insightful approach through hundreds of oral presentations, over 120 peer-reviewed publications, and 50 book chapters, inspiring paradigm shifts in the reconstruction process.

Beyond Dr. Gottlieb’s many contributions in reconstructive surgery, his endless compassion, ingenuity, and humility make him the fine surgeon and educator he is.
