

2019 AAHS ASPN ASRM ANNUAL MEETINGS

JW MARRIOTT HOTEL | PALM DESERT, CA

JAN 30 - FEB 2, 2019
American Association for Hand Surgery

FEB 1-3, 2019
American Society for Peripheral Nerve

FEB 1-5, 2019
American Society for Reconstructive Microsurgery

PRELIMINARY PROGRAM

AAHS*American Association for Hand Surgery*

Working together to advance global hand care and education, the AAHS represents a diverse but cohesive mixture of over 1,400 highly respected professionals working in all disciplines of hand surgery and hand therapy. Members include orthopedic surgeons, plastic surgeons, general surgeons, microsurgions, hand therapists, nurses and basic scientists. AAHS is an inclusive organization that welcomes members from many disciplines who are interested in upper extremity care.

If you are interested in becoming a member of the AAHS, please contact the AAHS Office at (978) 927-8330, contact@handsurgery.org or www.handsurgery.org.

ASPN*American Society for Peripheral Nerve*

The American Society for Peripheral Nerve is an organization devoted to the promotion and development of peripheral nerve surgery. The purpose of ASPN is to stimulate and encourage study and research in the field of neural regeneration, to provide a forum for the presentation of the latest research and relevant clinical information and to serve as a unifying authority on all areas of neural regeneration and restorative neuroscience. Join a growing society and contribute to the clinical and research development in the area of peripheral nerve surgery.

If you are interested in becoming a member of ASPN, please contact the ASPN Office at (978) 927-8330, contact@peripheralnerve.org or www.peripheralnerve.org.

ASRM*American Society for Reconstructive Microsurgery*

The mission of the American Society for Reconstructive Microsurgery is to foster excellence and innovation in microsurgery and reconstructive surgery. For over 30 years the ASRM has provided a forum for teaching, research and free discussion of microsurgery and reconstructive surgery methods and principals amongst its members. Members of the ASRM, with their tireless work and innovation, have helped transform the field of microsurgery and reconstructive surgery and continue to do so as an organization of over 800 members.

If you are interested in becoming a member of the ASRM, please contact the ASRM Central Office at (312) 456-9579, contact@microsurg.org or www.microsurg.org.

EDUCATIONAL PROGRAM DETAILS**Intended Audience**

This educational activity is intended for healthcare professionals and researchers working in the fields of hand surgery, peripheral nerve and/or neural regeneration, and microvascular surgery and other complex reconstructions.

Overall Learning Objectives

Please refer to the meeting websites for complete objectives and educational program details.

- www.handsurgery.org
- www.peripheralnerve.org
- www.microsurg.org

ABMS Core Competencies

This program will address the following ACGME/ABMS Competencies:

- Patient Care and Procedural Skills
- Medical Knowledge
- Systems-Based Practice

ACCREDITATION INFORMATION

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American Society of Plastic Surgeons (ASPS), the American Association for Hand Surgery (AAHS), the American Society for Peripheral Nerve (ASPN), and the American Society for Reconstructive Microsurgery (ASRM). The ASPS is accredited by the ACCME to provide continuing medical education for physicians.

AAHS Designation Statement

The ASPS designates this live activity for a maximum of **21.00 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

ASPN Designation Statement

The ASPS designates this live activity for a maximum of **16.00 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

ASRM Designation Statement

The ASPS designates this live activity for a maximum of **25.00 AMA PRA Category 1 Credits™, 1.0 AMA PRA Category 2 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Joint Day Designation Statement

The ASPS designates this live activity for a maximum of **3.00 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

DISCLOSURE POLICY

The American Society of Plastic Surgeons (ASPS) requires all faculty, authors, planners, reviewers, managers, staff, and other individuals in a position to control or influence the content of an activity to disclose all relevant financial relationships or affiliations. All identified conflicts of interest must be resolved and the educational content thoroughly vetted by ASPS for fair balance, scientific objectivity, and appropriateness of patient care recommendations. The ASPS also requires faculty/authors to disclose when off-label/unapproved uses of a product are discussed in a CME activity or included in related materials. Complete disclosure information will be provided prior to the start of the activity.

TYLER HAMILTON
*Former Professional Cyclist and
New York Times Best Selling Author*
Truth and Transformation

Tyler Hamilton was once one of the world's top-ranked cyclists—a fierce competitor renowned among his peers for his uncanny endurance and epic tolerance for pain. He started his career with the U.S. Postal Service team in the 1990s and quickly rose to become Lance Armstrong's most trusted lieutenant, and a member of his inner circle. For the first three of Armstrong's record seven Tour de France victories, Hamilton was by Armstrong's side, clearing his way. But just weeks after Hamilton reached his own personal pinnacle—winning the gold medal at the 2004 Olympics—his career came to a sudden end: he was found guilty of doping and exiled from the sport.

AAHS Danyo Lecture
Balance Revisited

Hand surgeons of all ages face challenges in their practices and personal lives that may lead to burnout. In Balance Revisited, Dr. Palmer will explore how to recognize when one's life is out of balance. The signs and symptoms of physician burnout and suggest changes that surgeons can make in their professional and personal lives to restore or achieve balance in their lives and thus prevent such burnout.

The New Era of Extreme Bionics

Society is at the threshold of a new age when machines will no longer be separate, lifeless mechanisms but will instead be intimate extensions of the human body. Such a merging of body and machine will not only improve the quality of life for disabled people but will allow persons with normal physiologies to experience augmented capabilities – cognitively, emotionally, and physically. Professor Hugh Herr of the MIT Media Lab describes a future world where technology will merge with our bodies to forever change our concept of human capability.
